

# Announcing ARMmite

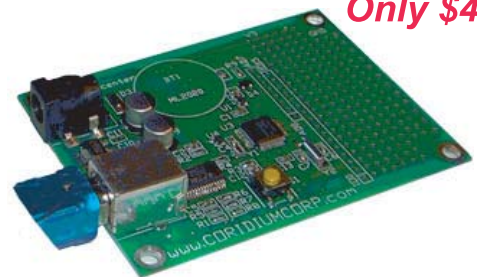

## The Newest Addition to the ARMexpress Family

A series of 60 MHz ARM CPUs running BASIC *faster than 10 million lines per second.*

The ARMmite single-board computer connects to a USB port and allows connections for up to 24 digital I/Os and 8 10-bit A/D inputs. With built-in support for I<sup>2</sup>C, SPI, ASYNC, PWM, and 1-WIRE protocols, it is ideal for a large range of applications requiring both high speed and quick programming.

**Single Board Price  
Only \$49**
